

## Insulated duct

Slogan: We deliver fresh air.

Name: Insulated Duct

### Construction:

Aluminum insulation Jacket steel wire

### Product features:

- Energy saving
- Long service life
- Space saving
- Easy installation
- No pollution
- Corrosion resistant
- Water-proof

Application: Central air-conditioning

Duct Construction: Aluminum foil+fiberglass/PET Jacket+steel wire

Wall Thickness : 25mm

Inner Diameter : 2"-24"(52mm-609mm)

Temperature Range : -20°C/+300°C

Air Velocity : 45m/s (max)

Operating Pressure : 6000pa

Standard Length : 10m

Fire Resistance : fire resistant

Jacket construction : aluminum PET

Insulation : 25mm glass wool 16 kg/ m<sup>3</sup>

Package : opp bag + carton or mixed passage
